

*Holliday Utility Services performs pipe bursting for those situations where choosing trenchless technology is of benefit to the customer.*

*Generally one can achieve from 1 to 3 pipe diameters of increase with pipe bursting.*

*For example: a 4 inch could be increased to a 6 inch, or a 6 inch could be increased to an 8 inch. Depending on soils you may be able to go 1 to 2 additional pipe diameters.*

*Materials which can be pulled through include HDPE, PVC, and ductile iron.*
